

"NADA"

(Emptiness)

By Javier Tirado

“Nada” A puppet show that takes place inside a box and is designed to be watched by one person at a time. Nada offers an intimate and relaxed interlude. A show performed in a small box that bring us to a fleeting moment: the creation of the Universe.

Each performance lasts 4 minutes, and sessions of 2 hours are conducted, which amounts to approximately 25 shows.

It is possible to have 2-hour up to 4 hours sessions in a day.

At certain events or fairs, to avoid audience waiting, each person may be assigned a specific time for their showing.

Optimal performance conditions:

- 4 Minutes
- An available power outlet nearby (220 V)
- A quiet space with dim lighting, anywhere inside. It is also possible to hold performances on the street inside a tent.
